

I am appalled to learn that Sinclair Broadcasting plan to air an anti-Kerry documentary two weeks before the election. This is a clear abuse of the public airwaves; how can they be allowed to pirate a public forum for a one-sided, unbalanced smear campaign that clearly aims to sway a national election for our highest office? It is the job of the FCC to guard against such abuses. Please look after your responsibility to the American people and defend principle of free and open debate. Only in this way can democracy be fostered and preserved.
